Mr. Jacques Muiden

Apartment 1-B
New York, New York

Dear Mr. Muiden:

Thank you so much for your kind letter of 1 December 1968. I hasten to send you my check for \$950.00 in part payment for the rug which you are to execute for me in Portugal. I note that the rug will be sent according to my instructions in about three to five months. Naturally both Mrs. Brown and I look forward to this beautiful floor covering.

May I say that since your visit I feel increasingly strongly that it would be a mistake to have the wide and significant border using the same pattern as in the center oval. I hope you will be able to derive from the sample of the original wall paper some other motif such as little bunches of roses, etc., so that the central oval will create the principal visual impact.

With kind personal regards, I am

Yours sincerely,

Enclosure
